HAS THE EU BANNED YOUR LIGHT BULBS?

On 16th March the European Union ratified EUP DIM1. This directive has banned the manufacture and purchase of all traditional pearl and frosted bulbs of 15w, 25w, 40w, 60w, 75w and 100w from 31st August 2009.

This includes all candle and golf ball shapes.

EUP DIM1

Dear Electric light user,

Unfortunate but true. Europe has banned the bulbs that millions of us use in our homes. Without provision for an alternative.

At Ryness we are the leading specialist lightbulb supplier in London. We have over 500,000 customers who buy decorative lightbulbs. They include The Houses of Parliament, The Cabinet Office, theatres, schools, care homes, hospitals, churches, restaurants and many private homes. Yet the Government has actually allowed the EU to ban the very lightbulbs they use in their own chandeliers.

There are not yet any totally satisfactory replacements. Low energy compact fluorescent bulbs & LED Bulbs are improving all the time but have various drawbacks. They only come in a limited choice of shapes, and have a narrow spectrum of brightness.

What makes the situation even worse is that the EU has put pressure on the European based manufacturers (GE, Osram, Philips and Sylvania) to reduce production immediately. Already prices have gone up 30%. It is not clear that any of the manufacturers are prepared to put in the investment to create new style decorative bulbs. If you have lights that use decorative bulbs, then time is running out to buy spares and replacements. Please order as soon as you can.

At Ryness we will do everything we can to help you. We are working hard to source replacements. But we have been advised that we could be breaking the law by continuing to sell traditional decorative bulbs after August, so we can't just stock up.

The Ryness policy is:

- * All orders from now will be handled on a first come first served basis.
- * We will endeavour to supply all orders received by **30th July 2009** in full, by ordering in bulk what you order from us.
- * All orders that can be fulfilled will be supplied by **31st August 2009**.
- * All orders must be backed by a credit/ debit card or cheque.
- * Any orders that cannot be fulfilled will be refunded in full.
- * We will not profiteer – our prices will directly reflect those that we are charged by our suppliers.

Orders can be placed either in our shops or on www.ryness.co.uk/goodbye.

Yours sincerely

James Shortridge
Managing Director

PS Incidentally this is only the thin edge of the wedge. They are now scheduling the banning of spot lights and reflectors.

PPS Ryness recycles all types of bulbs and batteries. This costs Ryness money, but most councils are not doing it.

ORDER FORM - Popular bulbs

Not listed? We aim to supply all bulb types and will source rare ones for you, please come to one of our shops or visit our website with wattage, shape, diameter and fitting.
